Pham Thanh Dao

JUNIOR FRONTEND DEVELOPER

✉ thanhdao02dd@gmail 📞 0979022810 📍 Tu Liem, Ha Noi, Viet Nam 🔗 https://profile.com

---

SUMMARY

I have nearly two years of Frontend experience at Bkav Corporation, where I contributed to feature development and built interfaces for security systems such as EDR, SIEM, and SOAR — many of which involved complex, visually rich dashboards. I also had the opportunity to work alongside senior experts with 10+ years of experience across various fields in IT, web, and desktop development. In the future, I aim to become a Senior Full-stack Developer, continuously learning and contributing to high-quality software products.

EDUCATION

FPT Polytechnic College   2019 – 2022
Information Technology   Ha Noi, Viet Nam
GPA: 3.5/4.0
English: Basic communication

WORK EXPERIENCE

Bkav Corporation   04/2024 – 02/2026

- I contributed to developing new features for internal projects and was responsible for building and enhancing web interfaces for management systems after successful bids, including platforms for malware management, monitoring, and execution, as well as investigative flowcharts similar to EDR solutions.
- Developed dashboard interfaces using ReactJS (JavaScript) and Redux.
- Optimized code, improved performance, and implemented clean code practices and coding conventions.
- Strengthened skills in TailwindCSS and collaborated closely with team members to deliver stable and maintainable products.

PROJECTS

Personal Portfolio Website — Frontend Developer 🔗   07/2024 - 09/2024

Technologies: ReactJS, TailwindCSS, React Router, Framer Motion, Netlify
Live demo: https://react-portfolio-ptd.netlify.app
GitHub: https://github.com/thanhdao03/portfolio-ptd
Description :

- Built a fully responsive personal portfolio to showcase skills and projects.
- Developed modern UI components with React + TailwindCSS.
- Implemented client-side routing and dark/light theme with persistence.
- Added smooth animations and transitions using Framer Motion.
- Deployed on Netlify with automatic builds and custom domain.

PTD React Admin Dashboard — Frontend Developer 🔗   02/2024 - 06/2024

Technologies: React (Vite), Material-UI, Context-Api, Firebase Auth , JWT
Live demo: https://dashboard-react-ptd.vercel.app
GitHub: https://github.com/thanhdao03/portfolio-ptd

Description :
- Designed and built a responsive admin dashboard using React, Material-UI, and Vite.
- Implemented JWT & Firebase authentication with role-based access control.
- Optimized performance with lazy loading and code splitting to reduce bundle size.
- Developed core pages: Analytics, Profile, Settings, Forms, and Auth pages (Sign in/Sign up/Forgot password).
- Enhanced UX with drag & drop, Google Maps, multi-level menus, and persistent dark/light theme.

Real-Time Chat Application – Full-Stack Developer 🔗   07/2025– 11/2025

Technologies: React, TailwindCSS, Node.js, Express, MongoDB Atlas, Socket.io, JWT, Zustand, Docker
Live Demo: https://chat-app-realtime-ochre.vercel.app
Frontend: https://github.com/thanhdao03/ChatApp-Realtime-FrontEnd
Backend: https://github.com/thanhdao03/ChatApp-Realtime-Backend

Description :
- Built a full-stack real-time chat app with instant messaging using Socket.io
- Implemented JWT authentication, protected REST APIs with Node.js & Express
- Designed a responsive UI using React, TailwindCSS, DaisyUI
- Added online/offline status, live message updates, and profile image upload (Cloudinary)
- Managed global state with Zustand and deployed using Vercel ,Render

Pizza Ordering Application – Frontend Developer 🔗   02/2025 - 05/2025
Technologies: ReactJS, Redux Toolkit, React Router, Tailwind CSS, Vite
Live Demo: https://fast-react-pizza-phamdao.vercel.app
GitHub: https://github.com/thanhdao03/Fast-React-Pizza-App-main
Description :
- Developed a responsive pizza ordering app with dynamic menu fetched from API.
- Managed cart, order, and priority state using Redux Toolkit and Thunks.
- Implemented order creation via POST request and displayed unique order ID.
- Added GPS-based location support and priority order feature with dynamic pricing.
- Designed mobile-first UI using Tailwind CSS.

SKILLS

Description :
- Languages: JavaScript (ES6+), HTML5, CSS3
- Frameworks/Libraries: React, Material-UI
- State & Routing: Redux, React Router
- Styling: SCSS / CSS Modules / TailwindCSS
- Authentication: Firebase Auth, JWT
- Tools: Vite, Git, GitHub, npm/Yarn
- Other: Responsive design, REST API integration, performance optimization

SOFT SKILLS

Description :
- Teamwork, proactive learning
- Time management, research and testing of new technologie
- Problem Solving
- Communication
- Teamwork & Collaboration
- Attention to Detail
